

Detention Admin Website

Mario Guriuc, Vlad Spiridon

I. INTRODUCTION

A. Purpose

The purpose of this document is to detail the requirements for the development of a web application for managing visits received by individuals sentenced to serve time in a correctional facility, whether it be a prison or a correctional home.

B. Scope

The application will allow authorized personnel to record and manage visitation data efficiently. It will facilitate the entry and retrieval of information related to visitors, including their identity, photograph, and relationship with the inmate.

C. Definitions

API Application Programming Interface

CSV Comma-Separated Values

JSON JavaScript Object Notation

HTML HyperText Markup Language

REST Representational State Transfer

GraphQL Graph Query Language
